UTV beds can reach temperatures of over 140 degrees. To keep that heat down, we used Military Grade Heat Deflection material on the bottom of the Dog Pad, sew a mildew resistant Foam Padding inside; we then cover it with Cordura® Fabric that is mildew resistant, rip, tear, and abrasion resistant.

Ruff Rider UTV Pet Pad with Heat Shield for RZR 900 comes with two sections:

Place the RBO1063-Ruff Rider Bottom Shield into the bed of your RZR 900 model with heat shield facing down

Place the RBO1062-Ruff Rider Top Shield on top, attaching the two sections with the velcro strips

⚠ WARNING ⚠

-Do Not Expose to open flame

-Always ensure that the thermal heat deflector portion of Ruff Rider Pad is always towards machine surface. Make sure RBO Logo is always facing up

-Please feel the top of pad with your hand to confirm the pad is cool enough for your pet

(Note placing top of pad in direct sunlight will create heat in top of pad.)

-Please use common sense when it comes to pet safety. It is up to you to be responsible for your pet's safety and wellness
